Adjustable Length And Interchangeable Components

WILTON

Snap-Loc Systems

Adjustable Length And Interchangeable Components With Easy Hand Assembly

Fig. 1 Heavy-Duty Construction

Industrial grade wall thickness provides durable parts with long lasting performance.

- Fig. 2 Bearing Surface & Snap Fit Contribute to outstanding performance with respect to "jetting" and holding power. Snap-Loc Systems are designed for normal shop air and fluid pressures.
- Fig. 3 Solid Hex Design This solid hex design is superior to a ribbed design because it has less tendency to strip.

Fig. 4 Durable Thread Design Cedarberg Snap-Loc Systems have milled, not turned, threads. This results in better starting threads, and less cross threading. Threads are easier to re-use.

FEATURES:

- Industrial Grade
- Adjustable Length
- Easy Hand Assembly
- Unrestricted Flow

- No Vibration Wandering
- **Chemical Resistance** ٠
- **Electrically Non-Conductive** •
- 3-Dimensional Adjustability •

Snap-Loc Systems

More Than Just A Coolant Hose... Flexible Arms
Air / Liquid / Vacuum Hose

Goosenecks
 Support Armatures

...An Element Of Ingenuity.

MORE THAN JUST A COOLANT HOSE ...

• Since the beginning, Cedarberg Snap-Loc Systems have served metalworking industries world-wide. However, the 3-dimensional flexibility and holding power of our design serves well in a wide range of applications. We work with product designers in many fields because our Snap-Loc Systems are... ...An Element of Ingenuity.

INTERCHANGEABLE COMPONENTS:

 Snap-Loc components are interchangeable; Reducers are available for 3/4" to 1/2" hose, and for 1/2" to 1/4" hose, allowing for the use of all three hose sizes in a single installation.

EASY HAND ASSEMBLY:

 Snap-Loc assembly and disassembly is fast and easy. Assembly Pliers are available for the 1/4" and 1/2" Systems. The Universal Assembly Tool can be used for assembly of 1/4", 1/2" and 3/4" Systems. Separation Wedges for each of the three hose sizes simplify disassembly (Pg. 10).

HOSE BEND CAPABILITIES:

- Snap-Loc hose may be bent to form tight turns. Minimum center-line diameters are as follows:
- 1/4" Hose; 2" center-line diameter
- 1/2" Hose; 3-1/4" center-line diameter
- 3/4" Hose; 5-1/4" center-line diameter

MATERIALS:

• Standard Snap-Loc Hose and Connector material is Delrin. Standard Nozzle material is polpropylene. Consult factory for alternate material availability.

CHEMICAL RESISTANCE:

- Delrin exhibits superior chemical resistance to alcohols, aldehydes, esters, ethers, hydrocarbons (gasolines, lubricants, hydraulic fluid), agricultural chemicals, many weak acids and bases.
- Polypropylene provides good chemical resistance to a wide variety of chemical products, including alkalies, solvents, as well as acids.

WORKING PRESSURES:

 Snap-Loc Systems components are designed for normal shop air and fluid pressures. They are not intended for high pressure applications. Maximum operating pressure is dependent upon many factors, including temperature of solution, hose and nozzle size, and whether pressure is induced slowly or instantaneously.

WORKING TEMPERATURES:

 Maximum recommended working Temperature for Snap-Loc Systems is approximately 200° F (93°C).

The Pac

For Coolant Hose Set-Up And Quick Maintenance

• Extension Segments (See Figs. C-D) may be used for fewer connections on long assemblies.

• All Extension Segments have a convenient eyelet for attaching to surrounding structures for extra long assemblies.

• Extension Assemblies also available with BSPT Connectors

BENEFITS:

- Simple tool slips easily over hose components for quick separation of parts
- · Works well in awkward positions or on machines

| CAT. NO. | PRICE | DESCRIPTION CODE |
|----------|--------|---------------------|
| 8701-006 | 14.Í Ï | Assembly Pliers for |
| | | 1/4" I. D. Systems |
| 8701-007 | 14.Í Ï | Assembly Pliers for |
| | | 1/2" I. D. Systems |

BENEFITS:

- · Get a tight grip on snap-fit
- · Great for special assemblies
- Tool makes it easier to get leverage for assembly
- Eliminates frustration of assembly with oily • hands or in awkward positions on machines
- · Compatible with most "Brand X" hoses

Universal Assembly Tool

| 8701-023 | 27.67 | Base | В |

FEATURES:

- · Simple to install and easy to use
- · Assembles up to 12" hose lengths
- · Purchase additional rods to assemble all sizes · Assembles hose segments, as well as round
- nozzles and connectors of same size

Toll-Free: 800-328-2279

Magna-Flow/E-Z Mist

Magna-Flow

Efficient Flow Control To Deliver Air / Liquid Coolant Where It Is Needed

FEATURES:

- · Control valve allows convenient adjustment of air / coolant near work
- · Barbed connection easily adapts to regulated shop air or machine coolant pump
- · Magnetic Base (38 Lb. Pull) holds unit firmly in position
- Made of high quality non-corrosive materials · Flexible hose can be easily directed and stays in position

BENEFITS:

- · Extends tool life with precise coolant delivery · Clears chips from work piece for easier visual
- inspection
- · Great for EDM flushing
- · Eliminates awkward support & adjustment
- · Quickly transfers to other machines

| CAT. NO. | PRICE | DESCRIPTION | CODE | |
|----------|-------|-----------------------|------|---|
| 8525-262 | 42.01 | Magna-Flow Single Pac | 1 | |
| | | Single 9" Length of | | |
| | | 1/4" I.D. Hose | | • |
| | | 1/8" I.D. Nozzle | | |
| 8525-263 | 4Ï .G | Magna-Flow Dual Pac | 1 | |
| | | Two 9" Lengths of | | |
| | | 1/4" I.D. Hose | | |
| | | 1/8" I.D. Nozzle | | |

8525-262

APPLICATION NOTE:

 It is easy to adapt units for more nozzle outlets. Extra hose, Y-fittings, and nozzles may be purchased separately.

E-Z Mist

Reliable Mist Flow With Precision Control

FEATURES:

- Get the right mist mixture with separate • air and fluid controls
- Fully assembled, ready to use
- No special tank required
- · Magnetic base can be easily repositioned
- · Made of high quality non-corrosive materials

BENEFITS:

- · Extend tool life with optimal heat dissipation
- · Allows correct mist mixture for any job
- Chemical savings •
- Flexible hose stays in position to direct mist flow with ease
- Maintenance minimized by in-line coolant filter
