Slotted Shim Kits

DMR™ slotted shims are manufactured from 304 stainless steel. Each kit contains 10 (mini) or 20 (standard) shims of each thickness (.001, .002, .003, .004, .005, .010, .015, .020, .025, .050, .075, .100, .125). Let DMR™ kits provide the right solution for all of your slotted shim applications.

All shims feature:

- permanently etched with thickness and size information for ease of selection
- Wide slots for versatility and ease of installation
- DMR™ Extended Tab for ease of installation
- Sturdy steel
